## XIV. Let's Go Home

- A. Pick up you son(s) by **9:00AM** the last day. Please, don't be late!
- B. It would be nice to have some help tearing down the campsite!

Phone calls: Scouts should not leave messages on an answering machine for their parents to return a call to camp. The phone number for camp is for *emergency use only*. The scout should try to call home at a later time if he doesn't make contact the first time.

Please try to make your new scout understand that leaving camp early is not a viable option. It spoils your son's camp experience and all the work that he has done to earn rank and merit badges. Severe homesickness happens and we will do everything we can to alleviate it. It may help if a parent would consider spending a couple of days in camp as a part-time leader close to the middle of the session. Fulltime leaders are always welcome! Your son won't get homesick if you are there!

Don't forget to have your scout pack his rain gear. It will probably rain occasionally at camp. We actually look forward to it as it usually cools things down a bit!

# Troop 4 2010 Summer Camp

Pack the swimming suit ON TOP of everything else in the camp box. The first thing he will do at camp is take the swim test so it needs to be available quickly. We are a large troop so we try to get to the pool early to avoid long waits; besides, a dip in the pool helps cool us off!
